Description: Guys, up for grabs is my **Doxa GMT Sub 750T Divingstar Limited**

Edition!

This desirable limited edition Doxa Sub 750T Divingstar GMT was released in September 2006 with only 200 watches of this model and a total of only 1,000 of the various GMT versions (Sharkhunter, Divingstar, Caribbean etc.) worldwide and the Divingstar version is sold out AFAIK.

Besides the additional GMT function and inner bezel to support a 3rd timezone, it uses a slightly larger case than the 750T and comes on a new, thicker bracelet with screw pins.

- satin brushed solid stainless steel (316L) case,
- 44.70 mm diameter excluding crowns, 14.00 mm height
- water-resistant up to 750m / 2460 ft.
- inner rotating bezel, adjusted using the upper screw down crown on the case, for a 3rd time zone
- AR coated 3mm thick sapphire crystal
- high grade Swiss made ETA caliber 2893-2 movement
- screw down crowns
- luminous hands and markers, additional oversized 24 hour hand to display a second timezone.
- newer style stainless steel bracelet (thicker and screw pins) with diver extension and deployant

TZ Near Mint condition (95%) with slight signs of use on caseback and bracelet. S/N intact but blurred in the photo because of photo thieves. Comes in the original tube with bracelet sizing tool and warranty card as well as the Doxa CD.

I have only worn it a few times and need the funds more than another watch right now.

Original MSRP was US\$ 2,569.00, priced for a quick sale at only **\$1,525.00** (payment with USPS money order) shipped CONUS.

Please send email to mattv@mailcity.com . Lots of references. Strictly first come / first serve

(please make sure to send me your details such as address when you want to reserve/purchase the watch).

Thank you for reading my ad!

Matt
